ANNEXURE E

CPA (IG) REQUIREMENTS FOR FOREIGN GOODS AND SERVICES

CONTRACT PRICE ADJUSTMENT AND FOREX PAYMENTS – IMPORTATION

Failure to propose contract price adjustment methods, either by completing this document or proposing alternative methods for any portion of the tender price, will lead to that portion of the tender price being considered fixed.

Where space in this document is insufficient, the tenderer shall submit the required information on separate schedules, duly referenced to this document.

Where foreign exchange is involved, and Eskom will cover the risk forward, the methods of payment listed in Part 1 are the only acceptable methods. It must be noted that Eskom considers **Payment Method 1** to be the default payment method.

PART 1: PAYMENT OF FOREIGN COMMITMENTS

Payment of Eskom's foreign commitment in foreign currency will be made either:

Payment Method 1:

a) To a nominated bank account in a foreign country in a foreign currency (payment will be made to the party and account nominated by the supplier in the contract, and not to any other party);

Applicable (Y / N)

b) To a valid SARB approved CFC account in South Africa, in a foreign currency (payment will be made to the party and account nominated by the supplier in the contract, and not to any other party). Service related payments are excluded from this option;

Applicable(Y/N) or

Payment Method 2:

In South African Rand at the selling spot rate of exchange obtained by Eskom's Treasury on the date that the forward cover is cancelled. Eskom will notify the supplier of the date that the forward cover is cancelled as well as the intended payment date, which will be as per the agreed payment terms. Any exchange rate adjustment after Eskom has notified the supplier of the date and the rate which the forward cover is cancelled, will be for the account of the supplier.

Applicable (Y/N).....

An indemnity in writing confirming that the supplier will not buy forward cover is required where Payment Method 1 or 2 is contracted.

[Payment Method 2 must be accepted by the Commercial Policy and Procedure Manager before the tender documentation is sent out, but at the latest before the tender closing date. If it is not approved before tender closing, Payment Method 1 will be the default.]

Eskom will require substantiating proof of importation at the time of invoicing, regardless of which payment method is selected.

Where goods were previously imported into stock by the supplier, for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases Eskom will not undertake any foreign exchange commitment or arrange forward cover.

Provided that the tenderer nominates either Payment Method 1 or 2 as the main tender offer, an alternative payment method offering a fixed price not subject to exchange variation may be offered for Eskom's consideration.

Where Payment Method 2 is used and the exchange rate variation is favourable to Eskom at the date of payment, Eskom will debit the difference between the invoice value and the amended value at the date of payment, based on the selling spot rate of exchange obtainable by Eskom's Treasury on the notified payment date.

PART 2: EXCHANGE RATES

The tenderer shall use the exchange rate as at the time of preparation of the tender and shall stipulate the date of the rate used in the tender.

Any request for a change of currency during contract execution, shall be substantiated by the requesting party and be mutually agreed by the parties to the contract. The requesting party shall be liable to absorb all related costs that Eskom has incurred, in relation to the affected portion, in securing the hedge, including any losses that Eskom may suffer as a result of cancellation of such forward cover;

Eskom must not be placed in a worse position than before the requested change, thus the Contractor will be paid in either:

- the rate at which the cover was cancelled, or
- The tendered rate of exchange.

PART 3: ADJUSTMENT OF IMPORTATION COSTS, ETC

The values in Rand included in the tender/contract price for the following costs shall be based on rates ruling for the month prior to the closing date of the tender and any variation in these rates applied to the value included in the tender price will be for Eskom's account.
