## TERMS OF REFERENCE (TOR)

### 1. ROLE OF NERSA

- 1.1. The National Energy Regulator of South Africa (NERSA or 'the Energy Regulator') is a regulatory authority established as a juristic person in terms of Section 3 of the National Energy Regulator Act, 2004 (Act No. 40 of 2004). NERSA's mandate is to regulate the electricity, piped-gas and petroleum pipeline industries in terms of the Electricity Regulation Act, 2006 (Act No. 4 of 2006), Gas Act, 2001 (Act No. 48 of 2001) and Petroleum Pipelines Act, 2003 (Act No. 60 of 2003)<sup>1</sup>.
- 1.2. In regulating the petroleum pipeline, loading and storage facilities, the Energy Regulator ensures that the most efficient and effective petroleum loading and storage facilities are in place to meet the requirements of existing and future customers. The objectives of the Petroleum Pipelines Act, 2003 (Act No. 60 of 2003) ('the Act'), include *to promote competition in the construction and operation of petroleum pipelines, loading facilities and storage facilities, promote the development of competitive markets for petroleum products and ensure an appropriate supply of petroleum to meet market requirements*.
- 1.3. Some of the activities of the NERSA Petroleum Pipelines Regulation division in terms of the Act include:
- issuing licences for the construction and operation of petroleum pipelines, storage facilities and loading facilities;
  - setting tariffs for petroleum pipelines; and
  - approving tariffs for storage facilities and loading facilities.

### 2. BACKGROUND

- 2.1. In terms of section 28(1) of the Act, the Energy Regulator must set, as a condition of a licence, the tariffs to be charged by a licensee in the operation of a petroleum pipeline and approve the tariffs for storage and loading facilities. Section 28(2)(a) of the Act states that the tariffs charged must be based on a systematic methodology applicable on a consistent and comparable basis, fair, non-discriminatory, simple and transparent, predictable and stable, such as to promote access to affordable petroleum products. Section 28(3)(a – c) of the Act further states that the tariffs set or approved must enable the licensee to recover the investment, operate and maintain the system and make a profit commensurate with the risk.
- 2.2. Regulation 4(7)(c) of the Regulations made under the Act ('the Regulations'), states that *the Regulatory Asset Base (RAB) contemplated in Regulation 4(6)(e) must include only those assets that are prudently acquired* (emphasis added).
- 2.3. NERSA wishes to act within the confines of the relevant legislation by ensuring that only 'prudently acquired' assets are included in the RAB for the determination of tariffs. Therefore, on 29 August 2018, NERSA approved the Guidelines for Prudency Assessment ('the NERSA Guidelines'). The NERSA Guidelines are applicable to the three industries regulated by NERSA (i.e. electricity, piped-gas and petroleum pipelines).

## CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
