• Proof of Veeam certification for engineer(s) who will configure backup & replication		
• At least three contactable customer reference letters (customer letterhead) where similar work was done in the last 3 years.		

4. Our Requirements

5. BACKGROUND

uShaka Marine Word’s computing environment consists of two physical host server that run a total of 22 virtual instances. The entity is currently executing its cloud migration roadmap. However, there is a need to provide a modern server environment to run production systems while executing the cloud migration roadmap. This RFQ seeks to appoint a suitably qualified service provider to supply a server, install and configure it according to best practice in line with the current architecture. Moreover, the service provider will migrate selected production workloads and start-up applicable virtual instances in the new server. Automatic load balancing between the two host servers must be setup and tested.
