### **3 BROAD-BASED BLACK ECONOMIC EMPOWERMENT AND SOCIO-ECONOMIC OBLIGATIONS**

SFF Association fully endorses and supports the Government's objective of Broad-Based Black Economic Empowerment and it is strongly of the opinion that all South African business enterprises have an equal obligation to redress the imbalances of the past.

SFF association would therefore prefer to do business with enterprises who share these same values and who are prepared to contribute to meaningful B-BBEE initiatives [including, but not limited to subcontracting and Joint Ventures] as part of their tendered Submissions. All procurement transactions will be evaluated accordingly.

#### **3.1 B-BBEE Scorecard and Rating**

As prescribed in terms of the Preferential Procurement Policy Framework Act (PPPFA), Act 5 of 2000 and Preferential Procurement Regulations 2017, Tenderers are to note that the following preference point system is applicable to this Tenders:

- the 80/20 system for requirements with a Rand value of up to R50,000,000 (all applicable taxes included); and

When SFF association invites prospective Service Providers to submit Proposals for its various expenditure programmes, it requires Tenderers to have their B-BBEE status verified in compliance with the Codes of Good Practice issued in terms of the Broad Based Black Economic Empowerment Act No. 53 of 2003.

Tenderers are required to complete Annexure A [the B-BBEE Preference Point Claim Form] and submit it together with proof of their B-BBEE Status as stipulated in the Claim Form in order to obtain preference points for their B-BBEE status.

Note: Failure to submit a valid and original B-BBEE certificate or a certified copy thereof at the Closing Date of this RFP will result in a score of zero being allocated for B-BBEE.

#### **3.2 B-BBEE Joint Ventures or Consortiums**

Tenderers who would wish to respond to this RFP as a Joint Venture [JV] or consortium with B-BBEE entities, must state their intention to do so in their RFP submission. Such Tenderers must also submit a signed JV or consortium agreement between the parties clearly stating the percentage [%] split of business and the associated responsibilities of each party. If such a JV or consortium agreement is unavailable, the partners must submit confirmation in writing of their intention to enter into a JV or

consortium agreement should they be awarded business by SFF association through this RFP process. This written confirmation must clearly indicate the percentage [%] split of business and the responsibilities of each party. In such cases, award of business will only take place once a signed copy of a JV or consortium agreement is submitted to SFF Association.

Tenderers are to note the requirements for B-BBEE compliance of JVs or consortiums as required by Annexure A [the B-BBEE Preference Point Claim Form] and submit it together with proof of their B-BBEE Status as stipulated in the Claim Form in order to obtain preference points for their B-BBEE status.

Note: Failure to submit a valid and original B-BBEE certificate for the JV or a certified copy thereof at the Closing Date of this RFP will result in a score of zero being allocated for B-BBEE.

### 3.3 Subcontracting

SFF Association fully endorses Government's transformation and empowerment objectives and when contemplating subcontracting Tenderers are requested to give preference to companies which are Black Owned, Black Women Owned, Black Youth Owned, owned by Black People with Disabilities, EMEs and QSEs.

In terms of sub-regulation 5 of regulations 6 and 7 of the PPPFA Regulations (2017) respectively, if contemplating subcontracting, a tenderer will not be awarded points for B-BBEE status level of contributor if the tender documents indicate that the tenderer intends subcontracting more than 25% of the value of the contract to any other person not qualifying for at least the points that the tenderer qualifies for, unless the intended subcontractor is an EME that has the capability to execute the subcontract.

In terms of Annexure A of this RFP [the B-BBEE Preference Point Claim Form] Tenderers are required to indicate the percentage of the contract that will be sub- contracted as well as the B-BBEE status of the sub-contractor/s.

## 10 BACKGROUND

SFF is a wholly owned subsidiary of CEF established by the Government and came into operation in 1977. The entity is mandated by the Minister of Mineral Resources and Energy to manage and control the Strategic stocks, Strategic assets and commercialization of the assets in order to fund the government mandate.

In 2012 SFF merged with Oil Pollution Control South Africa (OPCSA), which was previously a service provider to SFF. SFF manages three terminals: Saldanha, Milnerton and Ogies. Saldanha is fully utilized for both strategic crude storage and commercial activity with its revenue used to fund the mandate of SFF.

The function of the three Marine Loading Arms (MLAs) is to connect SFF's oil pipelines to a vessel (oil tanker) at the jetty. Without MLAs functioning as intended, no oil can be transferred from the oil terminal to a tanker or from a tanker to the oil terminal. The continued operation of the SFF Saldanha Terminal depends on MLAs that perform their intended function. In order to get the best (and timeous) results from interventions it was decided to refurbish one loading arm in order to improve availability while the more involved process of replacing the other two loading arms follows.

Item	Deliverable
a	HSE philosophy
b	Emission, effluents and waste materials register
c	Environmental impact assessment support as required
d	Preliminary Material Safety Data Sheets (especially for hazardous substances).
e	Qualitative risk analysis
f	Hazard identification study

**HSE philosophy**

Inherent safety and protection of the environment is a prerequisite from the beginning of the design process. The HSE philosophy must be included in the design premise document, and should include considerations on waste reduction, minimisation of fugitive emissions, ground water pollution prevention, minimisation of manning levels for hazardous processes, hazardous materials handling, early detection systems and specific measures to reduce risks to ALARP levels.

### **Risk analysis**

The risk analysis at pre-feasibility and feasibility level is expected to be qualitative and progress to a quantitative technique at the FEED level. There may however be some need for quantitative information in the feasibility phase to support the EIA. The analysis of risks includes those risks to human life, environment and material assets. The results of the risk analysis need to be compared to an agreed risk acceptance criteria and necessary risk reducing measures will be identified and implemented (e.g. detection and early warning systems etc).

### **Hazard identification study**

A systematic evaluation of all hazards shall be performed in the hazard study. The hazard study is the basis for the area classification drawings and may alter the location of for example buildings, process units on the plot plan or may lead to additional preventive measures (firewalls, other material types etc) being required.
